About Us

Ambulance USA is a Transportation Management Organization (TMO) whose management has over 20 years of international fixed-wing, ground ambulance, and patient logistics experience. Our management's hands-on experience involves planning, directing, supervising, and coordinating thousands of patient medical transports in six continents around the world.

Ambulance USA serves companies and private clients around the world in identifying, arranging, and coordinating medical transportation for their patients and loved ones.

Our experience involves identifying, coordinating, and organizing private pay scheduled medical transportation with a strong emphasis on aviation-related ambulance support and private transports.

Our Commitment To Serve You!

At **Ambulance USA**, we are committed to listening to our customer's needs and concerns. We believe in effective communication as a way to prevent errors, save time, and unnecessary spending. We strive to perform each task to the best of our abilities and provide practical service solutions with an experience that is not only efficient and professional but enjoyable.

At **Ambulance USA**, we have a great deal of pride in our work, we are detail-oriented, and we see on every transport case an opportunity to make a difference. Passion and compassion guide our actions that start on our first communication with our client and ends on a completed transport with a satisfied customer. *Our experience and reputation in the industry allow us the privilege to handle the most critical cases for domestic and international patient transfers.*

We hope you enjoy our services as much as we enjoy offering them to you. **Ambulance Transportation is our Passion.** We would love to be your Medical Transportation Provider in healthcare for many years to come.

Sincerely,

Xavier Paz, NR-EMTP
CEO, Founder
Ambulance USA, LLC.

AMBULANCE USA[®]

MEDICAL TRANSPORTATION

Our Mission

We aspire to ensure our clients receive the best information and service in a timely and efficient manner. We value loyalty, dependability, responsibility, and honesty. We continuously strive for constant development and improvement.

Capabilities

Domestic & International EMS

Our EMS experience and in-depth knowledge of global air and ground patient managed transportation enables us to provide *reliable and efficient solutions for medical transportation services worldwide.*

Managed Transportation

We offer *Customized Solutions with Safe, Easy Access to Medical Transportation* for many different industries to offload transportation processes while leveraging the knowledge and expertise of our patient transport specialists.

EMS Transportation

The types of EMS transportation services include:

- ★ Basic Life Support (BLS)
- ★ Advanced Life Support (ALS)
- ★ Specialty / Critical Care (SCT)
- ★ Bariatric (>137 Kg or 300 lbs)
- ★ Non-Medical Stretcher / Gurney (SV)
- ★ Wheelchair Van (WV)

EMS Consulting

The care of a patient begins with the right care at the right time and the right medical transport. We pay strict attention to details and make all the arrangements required for the patient's transfer so that our clients have peace of mind. Cases are customized to meet the client's preferences and thoroughly assessed to meet the specific patient and medical equipment needs.

International Admissions for Repatriations

Service by a *Dedicated Patient Logistics Specialist* assisting with hospital admission liaison and arrangements, obtaining transportation quotes, and coordinating international medical repatriations with government agencies and family members. Additionally, we manage all the necessary protocols and details while providing timely communication to everyone involved.
